525 MILES
OF THE
UNION PACIFIC RAILROAD
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED
THUS BRINGING THE END TO THE EASTERN BASE of the Rocky Mountains, which have hitherto limited the progress of the road by day by day. From six to nine miles of the most difficult and the summit is passed, the Pacific slope is reached and many eastern miles of road is over no mean road. Work in the rock cuttings in the western slope will be mainly through the granite and there is every reason to believe that the grading of the Pacific will be completed in 1869.
The means provided for the construction of the Great National Work are ample. The United States grants its Six Per Cent Bonds at the rate of from $16,000 to $48,000 per mile for which the Company issue an equal amount of their own First Mortgage Bonds, which are secured by a first lien on the road, and by a large grant of land from the Government. These lands are known as each twenty miles of road is completed, and the Company receive payment for them in every case. They consist of the finest portion of the great belt of country which lies between the 40th and 49th parallels of latitude, and which is known to contain large bodies of the best timber, and inexhaustible mines of coal, iron and copper. Much of this land in the Platte Valley is among the richest and most fertile in the world, and other large portions are covered with heavy pine forests and with coal.
The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government, and these Bonds, both U S and Company's, are delivered to the Company only as the work progresses, so that the advantage of interest on capital is in effect given to the public.
The entire road, when finished, will cost about Fifty Millions of Dollars, of which sum nearly Thirty Millions have been paid in upon the work already done.

EARNINGS OF THE COMPANY.
At present the profits of the Company are derived only from its local traffic, which is already much more than sufficient to pay the interest on all the Bonds issued, and leave a handsome surplus. But when the through traffic of the country, now settling in the Atlantic and Pacific States will be largely increased, and when the whole line will be complete, the earnings will be enormous.
It will be at once seen that the Union Pacific Railroad is not a Government work, built under the supervision of Government officers, but a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is more carefully guarded, and the Company has been upon a larger and more valuable property. As the Company's

FIRST MORTGAGE BONDS
are offered for the present at 95 CENTS ON THE DOLLAR, IN U S CURRENCY, they are the cheapest security in the market being more than 15 per cent lower than U S Stocks. They pay

SIX PER CENT. IN GOLD,
or over NINE PER CENT upon the investment. Subscriptions will be received in Portland by

George Francis Train and Susan B Anthony at Rahway N J A Racy Debate

On Monday night George Francis Train and Susan B Anthony were invited to address the people at Rahway N J by the Athenæum Society in the Enfranchisement of Women. A crowded audience greeted the reformers and Train spoke for a few hours for the glorious cause. Miss Anthony being just returned from Washington where she had been introducing her new Declaration Train interrupted her by asking about the last. The following sketch of her address we think will be read with interest.

Train—What did you say you went at the Capital?

Anthony—I went.

Train—What did everybody say to you? [Merriment.]

Anthony—They said we were traitors never getting a single vote and I advised them to petition for the new constitutional amendment.

Train—Did you see Ben Wade?

Anthony—Yes I called the Senate subscription list around. I called him ahead he said I will contribute and must win eventually. We are not going to take it up but it has got to come. Here is my name and $2 and thank you. [Applause.]

Train—What did Sumner say?

Anthony—I did not see him you have to go to the Senate but I saw Wilson. He was very gruff as I told Mrs. Stanton and myself during the last two years but I came more to like rough strikers than half hearted. In the Land Office we had no less than three applications for the same office. I said I want the man who can work. Senator Morrill came to me about the Kansas election. I said I was a friend of the cause. He then said he should be for the Revision and failing of passing that he would have an interest speech prepared. He is a warm Republican of Kansas. Being present said Now did I not work in Kansas. Miss Anthony but you should not charge the Republican party with opposing woman suffrage. It was only individual Republicans.

Miss Anthony—The reverse of that is true. It was only individuals who helped us. Your State Central Committee declared themselves neutral and then sent out as agents all the anti suffrage men and not one prominent advocate of the cause in the whole State.

Train—Who else did you see?

Anthony—Senator Howe. Anthony Henderson Nye and Drake were friendly and Senator Wilkinson was most go into Tennessee. He would write to Nashville and Memphis at once. Did not think they were educated up to the question. I said women voting was only a question of time. The Republicans were bound in honor to take up the measure as soon as they could afford it. [Applause.]

Train—Did Senator Train subscribe?

Anthony—No should not believe in us. Said it was as much as we could do to manage the women without the ballot [laughter] and with it there would be no managing them at all.

Train—Did you see our Nebraska Senator?

Anthony—Yes. Senator Thayer don't believe in woman's suffrage said we had killed the negro question in Kansas and hoped we would not go into Nebraska and refused to subscribe. But Senator Tipton is an other style of man. He paid a month's pay. Her Tate was a splendid name. Yes we are all right. The cause is glorious. He seemed disappointed that Thayer did not subscribe. Senator Grimes is with us. I remarked that Theodore Tilton said Iowa will first give us woman suffrage. Yes replied the Senator we shall be close upon the heels of the first State if not the first. Senator Conness Patterson and Henderson are to be relied upon. California should be more advanced but I am not surprised at Indiana and Tennessee. [Laughter and applause.] Senator Chandler said to me with an emphasis Michigan is more wide awake than her Senator. He seems to forget that his own State Convention recently gave nineteen votes for women and that the small balance of power may some day throw him out of the Senate. [Applause.]

The audience were much entertained by Miss Anthony's prompt replies and Train's persistent cunning. But first what the Congressmen had to say. Miss Anthony had a long list of the leading names of the country and I named for the Union two days and said that some of the Senators will be too close back after the holidays to get the rest of them.

Train—How about the House? Did you get Colfax?

Anthony—Yes I put down his name and he listened very like a man. [Applause.] But Colfax was the first to sign and but time that when he saw the name of Parker Pillsbury in the paper as an editor he felt that we had made a mistake. Four of all the old abolitionists who ever lectured him the most prophetic and effective one of them all. Colfax's first act was to cut off the salary of such of teachers we shall lose all our daughters. Hamilton said Fish's daughter had a thousand dollars in the Normal School at St. Louis where the principal Miss Brocket gets one of the highest salary paid among the one hundred thousand women teachers in America which is to the Republican party what Jane Grey Swisshelm is to the anti-slavery cause. [Applause.] Like Miss Dix was very friendly. I was to see Banks (who came out to be a great friend of your Train) and said the only trouble with Train is he has no money in train and the politicians have to call him crazy to get rid of him. [Loud laughter and applause.]

Train—If I thought I was as insane as most of our politicians who are running the country I would jump overboard and follow Cato's plan—fall on my sword. [Laughter.]

Anthony—Baker of Illinois and Lawrence of Ohio were both advocates. Lawrence at first said we don't need the Revolution. Baker said would ask where there was a paper that would speak of the cause of woman without a sneer? Lawrence admitted that it was so. The only argument that men had was sarcasm or an insult. That is so. The most disagreeable man I met was Oakes Ames who said Train will fix him a la Colfax and our paper in New York like to the extreme wrenching but I think they would make better Representatives than himself. [Laughter.]

Train—Did you see Beecher?

Anthony—Yes. Henry said Just the thing. Revolution splendid name just the thing—subscribe for it? Yes. And he did not as a mere editors do beg for a dollar at ticket. He said he would give it an editorial notice and recommend it to all his friends. The editor of the Independent was also up to time.

Train—Did you see the newspaper reporters? They are the important men of the time. [Applause.]

Anthony—Yes Bynton Young Seville Adams and others all had a kind word for the new sister of the press the Revolution. [Applause.]

Train—When do you return to get the other members?

Anthony—After the holidays when you Train and Mrs. Stanton are both invited to speak for the Woman Suffrage Association at Washington.

Train—Did Colfax give you the House of Representatives?

Anthony—I have not received answer.

Train—How about the Cabinet. Did you get Seward?

Anthony—No he was not at home but to Baker's private secretary was very cordial and rubber bed at once. He is with us heart and hand.

Train—Did you see Johnson?

Anthony—Yes surrounded with all the luxury of $7,000,000,000 for the rich and nothing for the [illegible] [Sensation.] He said [illegible] he will see we are all wrong. The most important thing that could happen to woman will be to enter into politics. I would want to be equal of man. Let her keep her place in the family and not man attend to the government of the nation. Man will protect woman [illegible] What great changes have taken place since then and I am now crowned [illegible] remembering half of things how [illegible] the reflection of Andrew Johnson made recall the movies of those better days [illegible] and I smell [illegible]

We Mentioned Secretary of the rebel Treasury the [illegible] went round that he had said he left [illegible] $900,000,000 or $300,000,000—he forgot which

THE CLOUD IN THE EAST—ARMAMENTS EVERYWHERE

Several of the Paris journals refer to the indications of a more friendly feeling which is supposed to have sprung up between the governments of France Austria and Prussia, and on this foundation they erect hopes of a continuation of peace as they do not anticipate that Russia would go to war with the entire west of Europe. There are signs, however, of a different state of things.

It is noted as significant that Prussia is sending needle guns and officers of instruction to Russia. The Presse gives currency to a statement which if true must be regarded as of considerable importance. It says that Baron Beust has sent a circular to foreign governments notifying to them the resolution of the Emperor Francis Joseph to reduce the military establishment of Austria, but informing them at the same time that Prussia was effecting considerable and threatening increase in her armaments. It will be recollected that for several months before the campaign in Bohemia, the Austrian and Prussian Governments through their respective organs contained reiterated complaints of this kind, each accusing the other of making preparations, whilst protesting its own inoffensive and desire for peace. The following statement is copied from the Gazette Nouvelle, of Vienna, does not seem to be inconsistent with the supposed reduction of the Austrian military force.

Austria is considerably augmenting the army in Galicia her stores are full of provisions and military preparations on a vast scale are being pressed on. It is stated that by next spring there will be a concentration of troops around Cracow. The hussars of Count Hayley's corps have received notice to have their stores ready and to be prepared for a campaign. The garrison of Cracow has received a new park of artillery a few days back, and there is a report that 20,000 cavalry and train horses have been purchased in Hungary for the Emperor of the French. The horses have been forwarded to Trieste and thence to Marseilles.

THE REAL MEANING OF THE FRENCH ARMY BILL.

[From the London Times January 13th.]

The scheme for the mobilisation of the army implies aggressive, not defensive designs, and if the combined hosts of the great powers are really four to one as M Rouher's arithmetic implies, the resident at the French army, were it only 300,000 men strong would be launched on a mad venture. Neither was Marshal Niel more in error when he told the France of 1859 with 500,000 men and 1,200 guns he said only muster 197,000 at Solferino and had to make peace at Villafranca, as it was unable to fight both on the Mincio and on the Rhine. These statements are important, for the Emperor could have mustered against the Austrians the 40,000 men of that "political army," which was kept idle under Prince Napoleon in Tuscany. But were Marshal Niel's assertions well founded what would his argument amount to, except that let France increase her forces as much as she will the only result must be a corresponding effort to the same purpose by all the other

Admission of Senators

A silly, and therefore characteristic article has appeared in the *Herald* entitled, Senator Will Iams Coming,"—the object being to show that the Senator is "coming" into political affiliation with Copperheads and rebels. This allegation, or surmise, is based on the fact that Williams opposed the exclusion from the Senate of Thomas of Maryland, who was accused of disloyalty There was nothing singular in Williams' action in this matter. Other Union Senators, who are known as steadfast supporters of the Union party and the reconstruction measures of Congress, took the same position on this question with Williams Trumbull of Illinois argued in favor of the admission of Thomas, and according to the reasoning of the *Herald*, he also is "coming" into the Copperhead party

We are of opinion that Williams and Trumbull, though differing from a majority of the Senate, are right in this matter. Thomas was willing to take the test oath, though there was some proof of his former disloyalty Williams and others argued that if he chose to take the oath he should be admitted, and if it was afterwards found that he had committed perjury, it would be the duty of the Senate to expel him. But he should not be refused admittance on charges which were not substantiated. When a Senator presents himself from any State which has a legitimate, recognized government, the proper course to be pursued is to admit him on his credentials, and if it is made to appear that he has committed perjury, or if he is convicted of disloyalty, the Senate may, and should, expel him. Bright, of Indiana, was expelled from the Senate in 1862 for disloyalty, and it is the duty of both Houses to see that no person sits there who does not bear true allegiance to the Government. But a member should not be denied admission because some body may suppose him to be disloyal We believe with Williams that if a Senator has the qualifications prescribed in the Constitution of the United States, he should not be prevented A— taking his seat. But after he is admitted, the— mate may, of course, for sufficient cause, expel him.

The *Herald* with its accustomed ignorance or y shrewd misrepresentation, declares that the pos— taken by Williams, is antagonistic to the whole r— construction policy of Congress Now the doctrine which is laid down by Williams, viz that a Senator should be admitted on his credentials, presupposes the existence of a legitimate State government, under whose authority such Senator is appointed. Such is the fact in the case of the State of Maryland But Senators are not admitted from the rebellious States because no governments are there which have been recognized by Congress, or which Congress chooses to legitimate. This is the true ground for the exclusion of Senators and Representatives from the rebel States, and the position is an impregnable one. The reconstruction policy of Congress is therefore in no wise invalidated by the position which Williams and other Union Senators have taken in the case of Thomas of Maryland. There is the broadest difference between the two cases, and no person of common judgment can fail to recognize it.

Though the Copperheads would be delighted to have the assurance that such men as Williams and Trumbull were "coming" into their organization, the prospect therefor is not what could be called flattering. The next thing the *Herald* says about Williams will probably be to denounce him for his "Radicalism."

PRIMARY MEETINGS TO DAY.—To day is the day named by the Union County Committee for the holding of meetings to elect delegates to the County Convention which will be held on the 7th March, for the purpose of choosing delegates to attend the State Convention at Salem. The place of meeting in the First Ward will be No 2's Engine House; in the Second Ward, the Court House, and in the Third Ward, Harker s building on Front street, west side, between Columbia and Clay. It is desirable that there should be a full attendance. The regulations prescribed will give all Union men an opportunity to participate. Let all come out and take part in these preliminary meetings, and so conduct them that there shall be perfect harmony in the party

Just before telegraphic communication failed on Tuesday last, the operator at Sacramento told the operator here that the President had been impeached. This statement got into circulation yesterday, and was the origin of the various rumors that were afloat in regard to impeachment. The line failed on Tuesday before any particulars could be received

The Chicago *Times* pronounces Congress "a body of revolutionists and traitors." The Evansville *Courier* says it is an "unconstitutional body" Fernando Wood says Congress is "infamous" Jeff. Davis and yellow fever Blackburn have not been heard from—says the Virginia (Nevada) *Enterprise*.

The Roseburg *Ensign* notices the fact that Heirich raves about "Radicals" using their own private funds to further their political interests, while it innocently parades the fact that "Ex President Pierce offers five thousand dollars for the Democratic campaign in New Hampshire next spring"

Somebody, with a view to the eternal fitness of things, says we Libby Prison as the proper place for the assembling of the next Democratic National Convention

THE GROWTH OF PHILADELPHIA.—The *Evening Bulletin* is celebrating the material growth of Philadelphia, gives some interesting facts with regard to the building enterprise of that city from the days of William Penn to the present time

When Penn came to Philadelphia in 1682, the city was composed of five hundred houses, many of which were of frame, clustered on or near the Delaware, from Pine street wharf to Dock creek Of these buildings the old Swedes' church is now almost the only relic remaining intact

In 1700 the number increased to 700, in 1749 to 2,076, in 1776, to 5 460, in 1803 to 15,000, in 1853, to 94,000, and finally, in 1868 there are 102 000 completed dwellings in the present limits of the city

Philadelphia has within the past fifteen years expanded her limits nearly ten fold, the act of consolidation alone, ten years ago, having taken a goodly portion of three adjacent counties Montgomery Chester and Delaware—to the circle of the city proper, and these suburbs have been rapidly built up till the Philadelphia of 1800 is the merest nucleus of the Philadelphia of 1868.

"Cursed be Canaan"

We had supposed that the best type of modern "Democracy" extant was to be found in "Santiam Forks," and that its utterances were the truest and clearest expositions of the "principles" of the party that could possibly be found But we acknowledge our error The "Forks" must give it up The Umatilla "Democracy" must be allowed to bear off the palm They follow the precepts and philosophy of Nasby to the letter and push that unquestioned "Democratic doctrine which is built on the text, cursed be Canaan, to its farthest consequences In Walla Walla precinct, Umatilla county, the assembled wisdom of the party has constructed a platform which is worthy to be an object of admiration even at Confederate Roads The preamble contains the gist of the whole, and is as follows

WHEREAS, The Constitution of the United States was made by white men, for themselves and their posterity or *those descending from them by ordinary generation* who held the race of Ham as life servants, by the authority of the divine law and by immemorial custom and

WHEREAS The "rights of man" are derived from the Creator of the Universe and as no responsibility for the preservation and control of civil government has ever been imposed on the black race of men, but, on the contrary, it has been rendered *incapable* both from disposition and destiny, *of being able* properly to discharge so high a trust, *therefore be it resolved*, etc

Than this, Nasby himself never did anything better Everything else is discarded, and the "nigger" is recognised as the corner stone of "Democracy" They fall back on the "divine law," and on that they stand Jefferson's notion that "all men are created equal," is an exploded fallacy The statement that "no responsibility for the preservation and control of civil government has ever been imposed on the black race of men, but on the contrary it has been rendered incapable both from disposition and destiny to discharge so high a trust," might have been affirmed with equal truth of our English ancestors some centuries ago, and of incompetency to "discharge so high a trust," were at this time affirmed of a considerable class who swell the "Democratic" vote, the allegation might not be far out of the way No doubt there are "Democrats in Walla Walla precinct Umatilla county, who dislike "niggers" so much that they would un no account drink with one—unless he paid for the fluids No doubt there are "Democrats" in that locality whose noses are blossoming from the effects of cheap whisky, who daily repeat with pious unction the words which have often been heard about "Bascom's," "And Noah drank of the wine and was drunken—cussed be Canaan!"

Neatly Done.

The new Democratic paper in San Francisco, the *Independent Dispatch*, the organ of the "regenerated" portion of the party, is a particularly sharp thorn in the side of the *Examiner* and the wing of the party that looks for the revival of the "Lost Cause" In its first issue, the *Dispatch* "went after" the *Examiner's* scalp and lifted it in the following manner

But it seems our main offence consists in saying "Instead of abusing each other for the means that brought about the result, should we not see in it the hand of an all wise Providence, and endeavor as soon as possible, to heal the wounds and extinguish the flames which it has left behind?" If great events do not happen by the permission of Divine Providence, will some Christian Secessionist inform us how they do take place? If there is not an overruling Providence, we confess we are sadly out of our reckoning. We cannot agree with our friend the *Examiner*, that the devil does the business We still cherish certain down East notions about God Almighty, which prevent our concurring with the theology of the *Examiner*. Moreover, we consider it absurd to quarrel with Providence about an inscrutable result that has become a fact. The truth is, there is a class of extreme Southern men in this State who, like the Bourbons, never learn anything and never forget anything. The only flag of principles and opinions which they carry at their masthead is the old red breeches of Mr Thomas Jefferson. Not that we mean any disrespect for that illustrious patriot, for no man ever loved liberty more for its own sake, and had he been alive these forty years would, no doubt, have profited by its lessons These gentlemen, for the flag of nationality, still support the stars and bars, like the editor of the *Examiner* Lee, Johnson and Beauregard have surrendered, and come down like men who had done all in the power of man and nobly, but our regular extreme sets, like the editor of the *Examiner*, still keep up the fire. They don't appear to have learned that the rebellion is closed out, at least all but the last chapter * * The *Examiner* don't appear to have come to the knowledge of the fact that the rebellion is crushed. We do not think there was any necessity for the *Examiner* people to run a tilt at us when they knew we were just on the eve of going to the public. There is room enough for both of us. There is no reason why we should collide. The *Examiner* circulates among the tombstones of a departed rebellion, whereas we shall go among the existing multitude and deal with live issues. We leave the office of Old Mortality to the *Examiner*. Our tastes do not lie in that direction.

WHERE THE QUICKSILVER COMES FROM.—As a matter of interest to miners, we glean the following facts regarding quicksilver from the *Alta and S Press*

The Almaden mine has been worked for eighteen years with increased productiveness, and now turns out somewhat over 30,000 flasks annually The total product of the mine since it was first opened is about half a million of flasks, worth twenty millions of dollars. It is worked by a company with a capital of $10,000,000, employment is given to 1,200 hands, and the yearly expenditure is over $700,000. Besides this mine, there are several others of considerable importance in California. The New Idria mine, on the eastern slope of the Coast Range, in Fresno county, employs 300 hands and turns out 12,000 flasks of quicksilver annually. The San Juan Bautista mine, recently opened, three and a half miles from San Jose, yields about 300 flasks per month, and the Reddington mine, situated fifty miles north of Suisun City, is yielding about 1,000 flasks per month. A valuable deposit of quicksilver has also been developed in Napa Valley, Napa county, within the last year.

THE COINAGE OF A YEAR.—In his report to Secretary McCulloch, Mr Linderman, the Director, gives the following facts concerning the operations of the Government Mint and its branches for the fiscal year ending June 30th, 1867

The deposits of bullion at the Mint and branches during the fiscal year were

Gold, $40,069,200 06, silver, $1 363 966 76, total deposits, $41,893,160 76 deducting from this total the deposits of bullion, or bars, made at one branch of the Mint and deposited at another for coinage, the amount will be $34,537,048 69 This amount exceeds the deposits of the preceding year by $2,625,329 15

The coinage for the same period was as follows

Gold coin, pieces, 1,469,481, value, $28,217, 187 60. Unparted and fine gold bars, $11,621, 691, 32. Silver coin, pieces, 2,074,902, value, $986,871, bars $578,823 18, nickel, copper and bronze coinage, pieces, 50,566 000, value $1,879, 540 Total number of pieces struck, 54 110,384 Total value of coinage, $43,281,113

A Colorado paper gives the following report of an after dinner speech, which was delivered a short time since Although it is not a full report, yet it will illustrate the style fully

"Speaker with three bottles of wine in him, and a glass in each hand" "The dinner seems to be given by the Board of Trade I don't know what for, they furnish a good deal of wine, how over, and that's what *I* want I am under obligations to my friend the Hebrew interpreter, who has served me with it constantly As I said, the dinner is given by the Board of Trade to the Legislature. The Legislature is a pretty good one I've seen worse [Interrupted by a gentleman who pronounces a glowing eulogy on Massachusetts] The gentleman has said considerable about Massachusetts, I dont know much about Massachusetts, *I* escaped from Maine"

BUILDING CITIES IN NEBRASKA.—The *Omaha Herald* published at Lincoln, in Nebraska, says

A short time since we saw a man driving a team over the town site, loaded with lumber and household furniture He had a plan of the city in his hand and every little while he would stop and examine the stakes After a long search he succeeded in finding his lot He immediately proceeded to unload his wagon, and in five hours from that time he had a house up and living in it.

FROM OWYHEE

From the *Avalanche* of the 8th inst we obtain the following items

STRUCK IT RICH IN THE POTOSI

We made mention of the Potosi mine last week Rich gold and silver ore was struck in the bottom of the shaft last Tuesday We cut out on the dump about one ton of it, just taken out, and it was truly a pretty sight to look at In this it could be seen pure crystallized silver and gold The rich streak is from twelve to fifteen inches in width, leading for ken wings on both sides that indicate a large body of it, if it is a greater depth The boys are in luck and they deserve it For over two years they have worked, with untiring energy, and under many discouragements, confident that a prize would reward them It the present degree of richness The vein holds out, they are all right Work will be continued and ore taken out, but we understand none of it will be worked till spring

BULLION

Calling at McDonald & Co's assay office yesterday we saw two gold and silver bricks of the value of $10,000 This was extracted from the Ida Elmore ore worked at the Lane mill and was the result of five days s tamping, leaving by far the richer portion of the amalgam in the battery

The bullion melted and assayed by McDonald & Co is now amounts to from fifteen to twenty thousand dollars per week

MORE MILLS.

Many more quarts mills are wanted to work our mines Enough quarts could be taken out of those now being worked to supply double the number of stamps running in Owyhee There are a great number of rich mines here that will remain idle next summer because of the scarcity of mills for working them It is a good chance for enterprising capitalists to bring in machinery and build more mills

THE WINTER

It is a remarkable fact that while the winter weather in Owyhee has been milder than for several winters past with comparatively fewer storms and much less snow than usual the snow has fallen deeper in the surrounding valleys than was ever before known, covering nearly every foot of ground between here and the Sierra and Blue Mountains also falling to a depth of several inches throughout the valleys of California, as low down at the coast range—having covered the ground from four to five inches deep at Marysville

Copperhead Plea for the Negro

In the fall elections of 1866 the Copperhead party of the North was handled very roughly The wholesale massacres of Union men, women, and children in the South that year, the public orgies of Andrew Johnson all the way from Washington to Chicago and the return, the establishment of the headquarters of treason in the Executive mansion at Washington, and the steady growth of the sentiment that for the preservation of the nation the loyal blacks of the country must be enfranchised—all had aided in such an overthrow of Copperheadism as carried dismay to the ranks of its supporters In that hour of discomfiture, when it was manifest that the old political sceptre must pass from the hand of the white master of the South, the Chicago *Times*, speaking for the Copperheads of the north west, used this strong language in favor of negro suffrage

What next? Can the Democratic party succeed until the negro question shall be got out of the way? It cannot Why not? Is not negro suffrage inevitable, and is it not the quickest way to at once concede the suffrage, making issue only on the degree to which it shall be conceded? We know that many Democrats have not reached this advanced view of the case, and that such are still inclined to revolt at the proposition of negro suffrage in any degree but let us tell them that it is always wise to accept the inevitable when the inevitable comes Negro suffrage, we say, is inevitable, and whether it shall be qualified or universal depends upon the promptness or otherwise with which the Democratic party shall move with reference to it The South will speedily add qualified negro suffrage upon the motion of the Democratic party because, if for no other reason, she will soon see, if she does not already see, that if she does not yield it, she will ultimately be compelled to accept universal suffrage

Qualified negro suffrage yielded by the South—and by this we mean impartial suffrage or suffrage dependent upon the intelligence of the man, irrespective of color, as is now the rule in Massachusetts—the negro question will have been disposed of, and the occupation of the Northern Republican party will be gone forever Not one inch of ground will it have to stand upon and the country can once more turn to those material questions of public policy, the right disposition of which is so essential to the public prosperity It will be upon these questions that the Democratic party will triumph, and it will be by the triumph that constitutional government and our federal system will be preserved.

If the South be wise, it will not wait, on the suffrage question, even for the motion of the Democratic party. If it be wise, it will lose no time in putting in motion the necessary machinery by which it will, at the same time, save itself from humiliation, preserve its own self respect, rid the country of the most vexatious questions that ever distracted any country, kill the worst political party that ever existed on the globe, and put the Union in the way of speedy restoration This machinery consists, of course, in conventions to revise the State constitutions

Of course the hope of the *Times*, when that article was published, was that the blacks of the South might be won over to the white man's party —rebel party That hope long ago vanished, but the argument remains. How do the shriekers for a "white man's" government like its logic?

The burning of Farwell hall, a short time since in Chicago, seemed to be the signal for the inauguration of a series of fires in that city almost unparalleled Day after day the fire king held undisputed sway, notwithstanding the many efforts to check its devasting course, but no sooner was it quelled in one part of the city, than it broke out with renewed vigor in some other portion In nearly every instance the fire has consumed first class business blocks which months of toil have reared, and in which millions of capital have been sunk, and which were ornaments to that rapidly improving city Marble blocks and brick, iron and wood, it made no difference, there was no distinction. Several of the finest blocks in the city were destroyed yesterday and the loss will reach to nearly four millions of dollars The store of Griggs & Co was one of the largest book concerns in the Western country, while the drug house of Lord & Smith, had few equals, in the extent of its business or the capital involved The block in which the store of Griggs & Co was located, was made of iron and supposed to be fire proof, but it seems to be anything but that

Kentucky, according to the report of the Agricultural Bureau, has raised 60,000 pounds of tobacco in a year, or nearly enough to furnish two pounds to each person in the United States—men women and children Many boys smoke or chew or both, but we are glad to know that comparatively few women do either Well, two pounds a head ought to be sufficient, and hence Kentucky should supply the whole country But she does not Millions of pounds are consumed in the United States beyond her production It is a serious reflection that every pound of this material is not only a waste in itself, but a sad waster of health If men used only what they need for health and enjoyment, they would not be the slaves they are to employers and tax gatherers

The question of "What is a billion" is thus discussed by the *Journal of Commerce*

There is not a standard English dictionary published which approves of the French system, and Webster's, which may certainly be quoted as good American authority, defines a billion as a million millions The very derivation of the word requires this definition A billion comes from (Latin) *bis* (Latin) *a like*, or literally a million twice, expressed in figures thus, 1 000 000 000, 000 To define it as a thousand million is to take away all the real significance of the word and to make the works of standard English authors where the term is used, perfectly unintelligible

"When I go a shopping," said an old lady "I allers asks for what I wants, and if they have it and its suitable, and I feel inclined to buy it and its cheap, and can't be got for less I most allers takes it without chippering about it all day as some people do"

NOTICE.

PORTLAND February 27th 1868

I THIS MORNING NOTICED A CARD OBTENSIBLY to be from Isaac Wagoner but written by James Bothwell stating Cutler Allen and myself to under threats of prosecution that I promise as false I will state under what circumstances I let him have the boat On the first day of September 1867 being unwell, and thinking that rest and sea air would do me good I put I Wagoner on my boat until I returned he giving me $75 in his return and he likewise to pay Emil Loewenstein & Co the sum of $20 50 100 If I did not return in six weeks which balance was not paid until three days after my return Now on the day of my return I saw Wagoner and agreed to go on the boat again on Friday or Saturday I was told that Wagoner had sold the boat to Bothwell I then saw Wagoner and asked him what he sold the boat to Bothwell for, and he said he did it to get even on the d—n rascal I was going on the boat and making a political thing of it—and likewise that Bothwell tried to arrest him and he had now got even I told him that I considered myself in honor bound to pay Bothwell back the money GEORGE P TOWNSEND

THE WEEKLY OREGONIAN.

THE WEEKLY OREGONIAN is published this morning. It contains the latest telegraphic news from the East and California—a select...n of the best articles appearing in THE DAILY OREGONIAN,—full and reliable news from the Mines, and the m...st copious commercial information published by any paper in the State.

The average amount of reading matter in the WEEKLY OREGONIAN is double that published by any other journal in Oregon and in the particular of Commercial statistics and the Markets we aim to make it the most reliable and more especially in matters pertaining to Oregon interests.

☞ Single copies 12½ cents or $3 00 per year to any part of the United States, or British Colonies.

THE IDAHO CITIES.—From the time when the oldest inhabitant settled in Oregon, certain people who affect an extraordinary amount of decency and refinement, have habitually abused and ridiculed what they are pleased to call the Oregon style. The California newspapers especially, have dwelt lovingly and with pre-emi...nce upon this theme, and if we mistake not, we have seen several very unkind flings at the Oregon style, from the Idaho press. However this may be, the Oregon style must hereafter be considered the height of refinement and as chaste as driven snow compared with the style now prevailing in Idaho. The following sentences leveled at the editor of the Boise *Democrat*, are from the Boise *Statesman*. We do not propose to tell half the truth about him, but just give the public an idea of what kind of a man he is. He has been repeatedly caught peering in at the windows trying to observe through cracks in the curtains respectable ladies while preparing to retire. The only reason why he has not been chastised for this nameless conduct is that people dread the notoriety of contact with such a loathsome being. Over in Owyhee he was a drunken bummer, too lazy to work, subsisting like a lizzard, and content to wear the cast off clothes of other men rather than work and earn them. His first appearance in public in this city was at a social party in a state of such beastly intoxication as to be an object of disgust. This is not half what we might say with truth of this man Browne."

In the next issue of the *Democrat*, the editor indulges in the following elegant and high toned style: The vile abortion who disgraces the *Statesman* office, the reality of whose moral hideousness far exceeds that of the most depraved monster ever depicted by or generated in the 2...d brain of a French novelist dares accuse us, etc. * * * Cadaverous scoundrel, etc * * * Vile etc...e, what hideous dreams must be yours! does not every ...tion of the diamond ring, stolen from the ...ger of the murdered Dave Updyke, which you occa...ally wear, appear like an evil eye, haunting you to perdition! When identified on your finger in a brothel of this town, to what a tissue of lies had you not recourse to ex...ain for your possession of it.

If that does not eclipse anything we ever saw in the "Oregon Style," we must confess we are profoundly ignorant of the nature of eclipses in general. Hereafter, let vile ...spaper literature be called the "Idaho style."

MARSHAL.—Messrs I R and J H Moore, E N Cooke, T McF. Patton, and others connected with the Oregon Central Railroad, called upon us yesterday. They say that the road is going to be built surely, that the preliminary surveys will be commenced immediately, and that, in a short time, the shipment of material by the *Wizard Arrow*, will be landed upon our wharves. We are not versed a full statement, in a few days of what the Company has done, what it is doing, and what it will do. The publication of such a statement will be very gratifying to the public, and will undoubtedly go far toward ...ving the doubt existing as to the ability of the Company to prosecute the enterprises in hand to a successful close. The confident tone of the Directors with whom we have talked is certainly very inspiring. In this connection, we will state that the impression which seems to be rather general here, in relation to the terminus of the completed road, is erroneous. It is not to be at East Portland, but at the point where the contract binding the builders to begin the road at the ...ity of Portland." Of this we are assured by the Directors.

RE IMPORTATIONS FROM CHINA.—While the Caucasian race has been engaged in discussing the feasibility of direct trade with China, the Moon-Eyes have got the start of us. Tong Duck Chung, a prominent Mongolian ...ng doing business on First street, informs us that ...ships have arrived from Hong Kong during the past ...l ...dden with teas and Celestial etceteras, consigned ...ers in Portland, is now on the way, and may be ...ted to arrive within the next sixty days. This ...ew by the way, is rather a heavy one, consisting ...f the ... of Tung Cheng & Co., wholesale ...e in San Francisco, Tung Duck Chong, wholesale and retail dealer, Portland, and a branch ...e, a wholesale and retail business at Dalles ...n, Grant county, Oregon. We are not advised when ...e vessel upon her return trip, will take a cargo of ...can merchandise, or fill up with the bones of de...d ...ts—probably a little of both

PASSENGERS FOR SAN FRANCISCO.—The following is a list of the passengers booked for San Francisco, per steamship *Panama*, up to right o'clock last evening: Mrs ...DOC..., Miss Lucy Knapp, Mrs A B Paxton, Miss ...Baker, Miss Housley, T H Dorris, Mr Wm Ostrile and two children, Rev H C Benson, J A Ripson, Arthur Brayman, W R Patty, E M Burton, T Holmes, E M Sanderling, Robt Stevenson, Mrs D Burrows, Jos Harris, M Gundlach, B Cohen, J D Brewton, H E Wood and ...ily, Mrs R W Reock, Wm Miller wife and two children, ...Knapp and wife, E B Knapp and wife, Mrs J B Knapp, ...M Holmes, Miss Holmes, T J Gottle, J G Wisecarver, ...Van Fridagh, Rev J C Clapp, Wm Bell, J W McCausland, A Hamaling, J G Woodson, H Boyd, Capt Geo Fisher, ...E Giddings, Mrs C Levy, E W Gutmotte, J Bloom, A ...y, Mrs M McBride and three children, R W ...y, Miss Mulligan, J A Davenport, Col West (Wells Fargo's ...nger), and 20 in the steerage.

THE ROAD TO VANCOUVER.—Mr. Aug A Shaeben has a ...ublication in the *Register*, concerning the proposed ...ment of the road connecting this city and ..., from which we clip the following:

...preliminary agreement has been entered into and ...ed to the effect that a number of property holders in ...ton and Clarke county pledge themselves to enter ...nto bonds to the amount of $20,000, guaranteeing to build ...and keep a good steam ferry-boat on the Columbia ...ver, to connect with the plank road, provided Multnomah county builds said road. The petition will be laid ...re in this County Commissioners of Multnomah county ...the 26 of March proximo.

...CHURCH, VANCOUVER.—The *Register*, of the ..., says: "The congregation of this church held a ... last week for the purpose of electing a vestry for ... year. The following gentlemen were elected: ...M. Fleet, Jas Lee, and Col. J C Hodges, Wardens; ...G. Crawford, H O Stones, J. Eddings, Jr., ...and G Weeden, Vestrymen. A regular meeting of the ... will be held on next Monday. The Rev. Mr. McCarty who has for a number of years past ...efficiently and zealously as Pastor of this Church, ...s leaving for the Atlantic States in about six weeks. ...is not known yet who will be his successor."

WHERE THE DALLES.—A passenger from the Dalles, yesterday, informs us that the ice broke loose from the banks opposite the Dalles, during Thursday night and floating down the river in a large body, lodged at a narrow place about two and a half miles below, where it still ...d yesterday morning. The passengers were compelled to ride down that distance in wagons. The *Idaho "Packet"* at the ice for about half an hour but without, ...ing a lasting impression upon it. Our informant ... the Dalles as being extremely dull as pertains ...ness kinds of ...ing.

FOR SAN FRANCISCO.—The steamship *Constantine* will take the following freight for San Francisco ...ng days: 12,264 qr sks flour, 800 bf sks do, 2,927 sks wheat, 265 sks middlings, 150 sks flax seed 380 sks potatoes, 192 sks onions, 2, 647 boxes apples, 105 cases do, ...kegs lard, 5 bbls do, 180 hf bbls dried apples, 5 hf do ...f, 1,600 staves, 22 bbls salmon, 19 hf bbls do, 13 ...shoe furs, 7 bdls skins, 6 rolls leather, 16 bales indse, 5 ...ages do, 30 pkgs do.

NOT SO BAD AS THAT.—Mr H C Clement, painter, informs us that some persons who do not know him intimately, have been foolish enough to suppose that he is the C... arrested for burglary, the other night. Such ... are very wide of the mark. The man who takes his brush and works as industriously for an honest living as does our young friend, H C Clement will never be ...ted of, much less arrested for burglary or any other crime.

THE NEW SCHOOL.—We are informed that it is the purpose of the authorities of this school district to open ...l in the new building next Monday morning, and to divide the district so that all scholars belonging to the primary and intermediate departments living north of Washington street, will hereafter be sent to the new building. We hope to be definitely informed as to the action of the Trustees, in the premises, by Monday morning.

PRODUCE.—The following were the receipts of produce ...y to-day: Per *Senator*, 3 bales and 1 case woolen goods, 123 boxes apples, 153 hf bbls dried apples, 3 boxes and 1 hf bbl eggs, 31 cases lard, 31 gunnies bacon, 531 sacks wheat, 65 sks feed, 2 hf bbls dried currants. Per *Alert*, 1,278 bags wheat, 829 qr sacks flour, 198 sacks feed, 33 boxes apples, 9 hf bbls lard, 6 boxes butter, 3 bales woolen goods.

REVIVAL AT THE DALLES.—We have information that an ...e revival of religion is in progress at the Dalles. The M. E. Church and the Congregational Church are each holding protracted meetings and are gaining large numbers of converts by conversion. Some thirty or forty persons have ...ken a position of conversion and united with the one or the other of the churches named.

CIRCUIT COURT—UPTON, Judge.—The following are the proceedings of yesterday, the 28th:

A. D. Tackleberry *et al*, vs. L F Grover. All the ...ty was occupied in the examination of witnesses and ar...ment of counsel. Case submitted to jury at 3½ o'clock P. M.

Court adjourned until Monday morning at nine o'clock.

INSURED.—Thus far, the total number of licenses ...ed in this city, for the quarter ending March 31, is 225 ...ns, viz: as follows. To retail spirituous liquors, 52 ...to sell lager beer 11, employment of females in saloons 2, for billiard tables 17, for hotels, 17, hotel runners 4, auctioneers, 3, for each and drays, 46, hacks 5, wagons and teams, 12.

IN THEIR NEW HALL.—We are requested to state that the Good Templars, having completed the fitting up of their new hall in Carter's building, will accupy it this evening for lodge purposes. All Good Templars in good standing are invited to attend.

HOUR OF SAILING CLARUS.—The hour at which the Centennial will sail to-day has been changed from 12 M to 9 A M. Her cargo was got in quicker than had been anticipated.

COUNTY COURT.—The March term of the County Court will open on Monday, the 2d with the following civil cases on the docket: Chapman vs Read Strong vs Mason & Read, Henderson Thomas, C P Ferry, executor and Thompson executors of the estate of C N Humaston vs E P Ellis, H James & Sir ...bridge administrators of the estate of T J Dufour vs Thomas Agee, C Tyler, administrator, vs E B Lamp.

FROM THE FARMING COUNTRY.—We talked with a gentleman yesterday, who has recently traveled through considerable portions of the upper Willamette valley. He represents the ...ason as most silent conditi...—never better in the winter season. Farmers are plowing and preparing for seeding as if the country has the air of activity and thrift.

BASE BALL.—The boys turned out yesterday afternoon for a game of base ball in the grounds near the river. They returned in the drizzling shower toward evening, under the impression that they had had a ...ully time.

COMMITTED.—The three Third street burglars had a preliminary examination before Recorder Hoffman yesterday afternoon and were each committed to await the action of the next grand jury.

PERSONAL.—Judge Howitt, of Washington Territory, arrived from Olympia Thursday evening and yesterday gave us a call. He will remain in the city only a day or two.

SENT TO THE HOSPITAL.—Two men named Gallagher and Desolin have been sent from the city to the county hospital.

LANDLADIES!—HUSBANDS.—Did you ever see your landlady's husband? Of course, you never did. No one ever does. My explanation of the mystery is, that he has learned the fatal secret of the hash, and it has been too much for him. Knowing what he does, he lacks the courage to look his wife's victims in the face, but slinks in at the area gate, and, in some remote corner of the house, broods over the dark transactions of the kitchen. That he actually exists and is not a mere myth as I once believed, I know to be a fact. One of my landladies years ago, used to refer to her husband quite frequently, alleging that Mr. H—, as she called him, could not sleep if the gas was kept burning in the house after nine o'clock, or that Mr H. couldn't endure the smell of tobacco smoke, etc. I did not believe in his existence for some time, until I discovered accidentally, that the poor spiritless wretch who crept up stairs after dark, and collected the lodgers' boots which were put out to be blacked, was Mr. H. himself. I tried to learn the cause of his misery, but he was not disposed to be confidential. One day, however, as I said to him, "My friend you have something on your mind, share it with me, and perhaps you will be better able to bear the burden," he looked carefully around to see if listeners were near, and then lowering his voice, whispered, "It's the cooking, sir! I know how it's done, and my mind ain't strong enough to bear it."

MRS Theodore Tilton writes to the *Revolution* (E. Cady Stanton's new paper) approvingly, and says that she desires equal rights for her four children, two of whom are boys and the other two girls. Bless her heart, she shall have it, so she shall.

All the feminine convicts sent to the French penal colony of Cayenne, have secured husbands there, including one who had murdered her first husband at home.

DR. C. W. COOL,
DENTIST.

THOSE WHO DESIRE FIRST CLASS DENTAL SERVICES might do well to give him a call. He is making a NEW AND IMPROVED VOLCANITE PLATE. The nature of his improvement consists in lining the entire concave surface with fine gold, it makes the plate twice as strong and one-third times thinner than the common volcanite plate. It also prevents the sediment of the mouth from coagulating the plate, and from turning it black, which is a common occurrence. One half of the common volcanite plates turn black after being in use a short time, particularly where tobacco is used for smoking. Into new style of plate admits of a very fine finish on the concave or palate surface. His office is the only place where such work can be had. The improvement is his own invention, for which he has received December 24, 1867, a patent from the United States Patent Office. He has been making this style of work for the last two and a half years, and has specimens of the work which can be seen at his office. This work has given satisfaction in every case.

Following is the address of General John A Logan to the Grand Army of the Republic upon assuming the position of Commander-in-Chief, to which he was recently elected It is of special interest, as setting forth the noble purposes for which the veterans of the war have banded themselves together.

HEADQUARTERS GRAND ARMY OF THE REPUBLIC,
446 Fourteenth Street,
WASHINGTON D C January 21, 1868

General Orders, No I Comrades: In accepting the position of Commander-in-Chief of the Grand Army of the Republic, to which your representatives assembled in convention at Philadelphia, on the 17th instant, elevated me, I assure you of my profound appreciation of the high honor conferred.

It shall be a duty subordinate to no other to so administer the trusts thus reposed, that our Order shall attain the pre-eminence to which its objects and mission entitle it.

The rules and regulations you have adopted as your guide, contain a declaration of principles which it may be well to notice, as setting forth the purposes and objects of the Grand Army of the Republic.

You have said in your fundamental law, the resolve designed to be accomplished are:

1. The preservation of those kind and fraternal feelings which have bound together with the strong cords of love and affection, the soldiers, sailors, and marines who have stood [illegible] er in many battles, seiges, engagements, and marches.

2. To make these ties available in works of acts of kindness, of favor, and material aid to those in need of assistance.

3. To make provision, where it is not already done, for the support, care, and education of the children of soldiers, sailors, and marines, and for the maintenance of the widows of the [illegible] soldiers, sailors, and marines.

4. For the protection and assistance of [illegible] soldiers, sailors, and marines, whether [illegible] bled by wounds, sickness, old age, or [illegible].

5. For the establishment and defense of the rights of the late soldiers, sailors, and marines of the United States, morally, socially, and politically, with a view to inculcate a [illegible] on of their services to the country, and to a recognition of such services and claims by the American people.

6. The [illegible] pance of true allegiance to the United States of America, based upon a [illegible] for, and fidelity to the national Union and laws, unmitigated by [illegible] loyalty, incite insurrection, treason, or [illegible], or in any manner impair the efficiency of our free institutions; together with [illegible] of fraternal liberty, equal rights, and [illegible] to all men." (Art. II Regulations.)

Guided by these objects and principles the Order has in the past year increased to [illegible] had in history, and is rapidly increasing over the whole country wherever [illegible] are to be found in numbers sufficient to establish posts.

It is my earnest hope that the progress made [illegible] will be but an auspicious precursor of the future.

The plan of our organization is similar to [illegible] recently served. The [illegible] ance from the time you [illegible] your post. The ceremonies in which you pass are not empty forms, but have deep meaning.

The [illegible] ledges which made you [illegible] in war must follow you into the [illegible] Army of the Republic, to distinguish [illegible] did in the camp or on the [illegible].

Any one should properly estimate his own [illegible] in carrying out the high aims of our Order [illegible] can be excused from a full [illegible] of his duty under the false [illegible] voice of his band is not [illegible]. You alone could have put down the [illegible] except by individual effort united, and [illegible] the results you seek on [illegible] in your hearty co-operation, I [illegible] command of the Grand Army of the Republic.

Directly in transacting the business [illegible] to the organization, I have [illegible] Quarters for the present at [illegible] City, D. C.

All official communications will be addressed [illegible] N. P. Chipman, Adjutant General.

The Order will be announced in future orders [illegible] made as may lead to the more complete working of our organization.

Department Commanders will promulgate these orders in their respective commands [illegible] Staff Officers.

The several regulations and ritual will be [illegible] and to Department Commanders for [illegible] by day.

Full and complete returns will be sent to [illegible] Office of every Department Commander within thirty days after the receipt of this order.

JOHN A. LOGAN,
Commander-in-Chief.

[illegible] N. P. Chipman, Adjutant General.

[illegible] AND COMMERCE.

[illegible], FRIDAY, Feb. 28, 1868.

The [illegible] market is not as new aspects since [illegible] with the exception of a few articles [illegible] as then noted. The receipts of merchandise by the late [illegible] arrivals, and the shipment of [illegible] above, have lent something of an [illegible] to the city; but the activity is more apparent [illegible] retail stores are really not large and [illegible] only one or two lines, has not much life, [illegible] however for an early and fair [illegible] with both the Willamette and Columbia [illegible] that the late closing of the [illegible] will have a good effect upon the trade of the [illegible] will be felt within the next week or two. [illegible] valley have become unusually [illegible] and the rural [illegible] supplies must be drawn from this market.

[illegible] is not in a healthy quiet, consequent upon the [illegible] at San Francisco. Lard is [illegible] only [illegible] is the first for which there is any demand [illegible] the figures a trifle improved. Our [illegible] from San Francisco is from the [illegible] of the 23d. That paper quotes: "Flour market quiet; [illegible] Extra quotable at $6@$ 25, [illegible] $6 25@6 50 for hf and qr sks, as to brand [illegible] Cal at $5 62½@$ 70 for shipping, $5 75@$ 12½ for good to choice milling. The [illegible] to-day's date at 16s [illegible] The [illegible] for the 21st quotes local [illegible] as follows: "Superfine hf sks, $ 196 [illegible], $5 25@5 37½ for extra hf sks, $ 750 [illegible] and hf sks [illegible], $4 25."

Groceries have improved and moderately active. [illegible] a fraction lower. Coffee—[illegible].

Agricultural [illegible] the season will soon open, we will in a week or two present the list thoroughly revised [illegible] and for early spring farming and garden [illegible] quotations.

Hardware trade is last reported, with prices firm. [illegible] is still an advancing tendency in all kinds.

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is fully convinced of its INFALLIBILITY but he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness.

E. B. MOORE, NATHANIEL BELL,
A. L. WALLACE, G. R. WARD,
Mrs MONTGOMERY, JOHN M HOLLOWAY,
W. D. PORTER, ROBT RAMSEY,

And others in that vicinity

The patient if it cure is not effected with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan

Prepared by **SMITH & ROACH,**
